

LEGAL NOTICE

PRIVACY POLICY OF THE WWW.HUNDCA.HU WEBSITE

This privacy policy applies to all websites and applications of the Hungarian Datacenter Association (Magyar Adatközpont Szövetség) (1064 Budapest, Podmaniczky utca 57. 2/14., Hungary) that contain a reference to this policy. Where and when the text so indicates, this privacy policy also extends to the marketing and communication practices of the Hungarian Datacenter Association. The purpose of this policy is to inform you about how the Hungarian Datacenter Association collects and uses your personal data.

The data security of the visitors of the site is of great importance to the owner of www.hundca.hu. The Hungarian Datacenter Association, as the owner and operator of www.hundca.hu, and as data controller, declares that it processes the data obtained through its services in accordance with the Hungarian legislation in force at all times. This privacy notice (hereinafter: Notice) is continuously available at <https://www.hundca.hu/static/privacy-policy.html>.

The Hungarian Datacenter Association reserves the right to amend this Notice. The Hungarian Datacenter Association treats all data and facts that come to its knowledge confidentially and uses them exclusively for the operation and development of its services. Within the services, all processing of data relating to the data subject is based on voluntary consent.

Below we describe the scope of personal information received and collected about the visitors of the site.

Visiting the website

During visits to the website of the Hungarian Datacenter Association, one or more cookies - small information packages that the server sends to the browser and that the browser sends back to the server with every request directed to the server - are sent to the computer of the person visiting the website, through which the visitor's browser becomes individually identifiable. This applies where the person visiting the website, following clear and unambiguous information, has given their express (active) consent through their conduct of continuing to browse the website.

Cookies operate exclusively for the purpose of improving the user experience and automating the login process. The cookies used on the website do not store information suitable for personal identification, and the Hungarian Datacenter Association does not carry out any processing of personal data in this respect.

Registration, newsletter subscription

The legal basis for data processing in the case of registration or newsletter subscription is the consent of the data subject, which the data subject gives on the website of the Hungarian Datacenter Association by ticking the checkbox next to the text "registration" or "newsletter subscription", following information regarding the processing of their data.

The scope of data subjects in the case of registration or newsletter subscription: every natural person who subscribes to the newsletter of the Hungarian Datacenter Association or registers on the website and gives their consent to the processing of their personal data.

The scope of data processed in the case of newsletter subscription: name, e-mail address.

The scope of data processed in the case of registration: name, home address, e-mail address, telephone number, password.

The purpose of data processing in the case of newsletter subscription: informing the data subject about the services and activities of the Hungarian Datacenter Association, changes therein, and providing information about news and events.

The purpose of data processing in the case of registration: establishing contact for the purpose of preparing the conclusion of a contract, providing services available free of charge on the website to the data subject, and access to the non-public content of the website.

The recipients of the data (those who may access the data) in the case of newsletter subscription or registration: the head of the Hungarian Datacenter Association, the staff member responsible for client relations, and the staff of the data processor responsible for operating the website of the Hungarian Datacenter Association.

The duration of data processing in the case of newsletter subscription or registration: until withdrawal of consent. In the case of newsletter subscription, until unsubscription; in the case of registration, until deletion at the request of the data subject.

The data subject may unsubscribe from the newsletter at any time and may request the deletion of their registration (personal data). Unsubscription from the newsletter takes place by clicking on the unsubscribe link placed in the footer of the electronic mails sent to the data subject, or by postal letter sent to the registered seat of the Hungarian Datacenter Association.

Community guidelines / Data processing on the social media pages of the Hungarian Datacenter Association

The Hungarian Datacenter Association maintains social media pages (e.g. Facebook, LinkedIn) for the purpose of introducing and promoting its activities and services.

A question asked on the social media page of the Hungarian Datacenter Association does not qualify as an officially submitted complaint.

The Hungarian Datacenter Association does not process the personal data published by visitors on its social media pages.

Visitors are subject to the Privacy Policy and Terms of Service of the given social media platform.

In the event of the publication of unlawful or offensive content, the Hungarian Datacenter Association may exclude the person concerned from the members without prior notice or may delete their comment.

The Hungarian Datacenter Association is not liable for data content or comments published by social media users that violate the law. The Hungarian Datacenter Association is not liable for any error or malfunction arising from the operation of the social media platform or for any problem resulting from changes to the operation of the system.

Collection and processing of personal data

The collection and processing of personal data takes place with your consent, as required by statutory provisions, or for the purpose of enforcing the legitimate interests of the Hungarian Datacenter Association, among other things in order to: (i) offer you services; (ii) perform tasks related to the management, administration and operation of our organisation; (iii) comply with our contractual and statutory obligations; (iv) ensure the security of our systems and partners.

Personal data are used for the following purposes:

- sharing news, updates and useful tips about the activities and services of the Hungarian Datacenter Association;
- providing information about events, professional programmes and other announcements;
- receiving and evaluating job applications and other applications;
- customising, analysing and improving our services, technologies, communication methods and our relationship with you.

Method of storage of personal data, security of data processing

The data processing of hundca.hu is carried out exclusively by the Hungarian Datacenter Association; it does not disclose personal data to third parties, except on the basis of the consent of the data subject. If the Hungarian Datacenter Association is obliged to disclose personal data to a requesting authority and all conditions for this are met, it complies with the request. To authorities - provided that the authority has indicated the exact purpose and the scope of the data - the data controller discloses personal data only to the extent and in the measure strictly necessary for the fulfilment of the purpose of the request. We inform users that the court, the public prosecutor and the investigating authority may contact the data controller for the purpose of providing information, communicating or transferring data, or making documents available (Section 71 of the Hungarian Code of Criminal Procedure).

The Hungarian Datacenter Association selects and operates the IT tools used for the processing of personal data in the course of providing the service in such a way that the processed data:

- is accessible to those authorised to access it (availability);
- its authenticity and authentication are ensured (authenticity of data processing);
- its unchanged nature can be verified (data integrity);
- is protected against unauthorised access (data confidentiality).

The data controller ensures the protection of the security of data processing through technical, organisational and structural measures that provide a level of protection appropriate to the risks arising in connection with the data processing, and preserves in the course of data processing:

- confidentiality: it protects the information so that only those authorised may access it;
- integrity: it protects the accuracy and completeness of the information and of the method of processing;
- availability: it ensures that when the authorised user needs it, they can actually access the desired information and that the related tools are available.

The IT system and network of the Hungarian Datacenter Association are protected against computer-assisted fraud, espionage, sabotage, vandalism, fire and flood, as well as computer viruses, computer intrusions and denial-of-service attacks. The operator ensures security through server-level and application-level protection procedures.

We inform users that electronic messages transmitted over the internet, regardless of protocol (e-mail, web, ftp, etc.), are vulnerable to network threats that lead to dishonest activity, disputing of contracts, or the disclosure or modification of information. To protect against such threats, the service provider takes all precautionary measures that can reasonably be expected of it. It monitors the systems in order to record any security deviation and to be able to provide evidence in the event of any security incident. In addition, system monitoring also makes it possible to verify the effectiveness of the precautionary measures applied.

The rights of the data subject in connection with each data processing operation and the possibilities of enforcing those rights.

The data subject has the following rights in connection with data processing; the deadline for compliance is no more than 30 days from receipt of the request:

- the right to information and access, under which the data subject is entitled to receive confirmation from the data controller as to whether the processing of their personal data is in progress and, where such processing is in progress, to obtain access to the personal data. Furthermore, to the categories of personal data concerned, the purposes of the processing, the recipients or categories of recipients to whom the personal data have been or will be disclosed (including in particular recipients in third countries and international organisations), and, where applicable, the envisaged period for which the personal data will be stored. If this is not possible, the criteria used to determine that period, as well as the data subject's right to request from the data controller the rectification, erasure or restriction of processing of personal data concerning them and to object to the processing of such personal data. The right to lodge a complaint with a supervisory authority; where the data were not collected from the data subject, any available information as to their source; the existence of automated decision-making (including profiling) and, at least in those cases, meaningful information about the logic involved, as well as the significance and the envisaged consequences of such processing for the data subject;
- the right to rectification, under which the data subject is entitled to have the data controller rectify inaccurate personal data concerning them without undue delay upon request, and, taking into account the purposes of the processing, the data subject is entitled to request that incomplete personal data be completed, including by means of providing a supplementary statement;
- the right to erasure, under which the data subject is entitled to have the data controller erase personal data concerning them processed on the basis of consent without undue delay upon request. Where the data controller has made the personal data public and is obliged to erase them, it shall, taking account of available technology and the cost of implementation, take reasonable steps (including technical measures) to inform data controllers processing the data that the data subject has requested the erasure by such data controllers of any links to, or copies or replications of, those personal data. This is the right to be forgotten.
- the right to restriction of processing, under which the data subject is entitled to have the data controller restrict processing upon request where the data subject contests the accuracy of the personal data, or where the processing is unlawful and the data subject opposes the erasure of the data and requests instead the restriction of their use; furthermore, where the data controller no longer needs the personal data for the purposes of the processing but the data subject requires them for the establishment, exercise or defence of legal claims; or where the data subject has objected to the processing, in which case the restriction applies for the period until it is determined whether the legitimate grounds of the data controller override the legitimate grounds of the data subject.
- the right to data portability, under which the data subject is entitled to receive the personal data concerning them, which they have provided to a data controller, in a structured, commonly used and machine-readable format, and is entitled to transmit those data to another data controller without hindrance from the data controller to which the personal data have been provided.
- the right to object, under which the data subject is entitled to object at any time, on grounds relating to their particular situation, to the processing of their personal data where the processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the data controller, or where the processing is necessary for the purposes of the legitimate interests pursued by the data controller or by a third party, or where the purpose of the processing is direct marketing. The Hungarian Datacenter Association does

not terminate the processing on the basis of the objection if the processing is justified by compelling legitimate grounds which override the interests, rights and freedoms of the data subject or which are related to the establishment, exercise or defence of legal claims.

- the right of the data subject not to be subject to a decision based solely on automated processing - including profiling - which produces legal effects concerning them or similarly significantly affects them.

The right to lodge a complaint with the supervisory authority.

Without prejudice to any other administrative or judicial remedy, every data subject is entitled to lodge a complaint with the Hungarian National Authority for Data Protection and Freedom of Information (Nemzeti Adatvédelmi és Információszabadság Hatóság; hereinafter: Supervisory Authority) if, in the data subject's view, the data controller has committed an infringement through its activity or omission, or has created the risk thereof.

The right to an effective judicial remedy against the data controller.

Without prejudice to any available administrative or non-judicial remedy - including the right to lodge a complaint with the supervisory authority - every data subject is entitled to an effective judicial remedy if they consider that their rights relating to the processing of their personal data have been infringed.
